Daniel Nyholm Nielsen, from Denmark, decided to attend Music and Theatre class at Andebølle Youth College and now he is planning to continue his Music education at the "Rhythmic Music Conservatory" in Copenhagen.

Why did you choose to study at Andebølle? How did you hear about the school?

Me and my mother looked on the internet and searched with google the word "højskoler". Then we looked at the results: we knew that I needed something with Music and we found Andebølle.

Did you feel yourself at home in the school, with the other students and with the teachers?

I didn't feel like I was home, but in a good way, because I think it's interesting and nice to be away from home, and I really like when I have people and friends around me all the time... and also to have some other people like the teachers instead of your parents to care about you and talk with you if you have something you need to talk about.

What do you miss the most of Andebølle and what do you remember most about this experience abroad?

I miss pretty much everything about Andebølle: the feeling

and the fun between students and teachers. I mostly remember the summer part when all of the students were sitting around the fireplace, had fun and listened to some music. I really really miss it sometimes!

Was your semester at Andebølle important for your life and for your cultural and personal development? If yes, in which way?

Definitely. I have really learned much more about Music and Theatre and I have learned much about taking care of myself and to take care of other people if they are sad or in a bad mood. I also learned much about teamwork on the trips. So, yes, Andebølle was definitely a really good part of my life.

What are you doing at the moment and what are your plans for the future?

I'm working in the supermarket "BILKA" and my plans are to do what it takes to get into "Rhythmic Music Conservatory" in Copenhagen.
