Latvian day in Andeballe

The 1st of March was Latvian day in Andeballe. The 4 Latvian students, with the help of the kitchen staff, cooked traditional food and, in the evening, showed a presentation about their Country.

This "theme day" about Latvia was part of a series of 'Intercultural Evening' organized every week to help the students to be active in the process that leads to intercultural understanding and learning. This is one of the aims of a school like Andeballe, that hosts students from different Countries, cultures and backgrounds.
